# Heaters that are safe

Protective grilles prevent children from touching the heating element, and rounded corners and built-in louvers reduce the risk of injury. And thanks to a lockable thermostat, splash protection, and a thermal safety feature that cuts off the power in the event of overheating, you're guaranteed peace of mind.

**APERO**  
Simply efficient!  
500 to 2000 W (240 V - Canada only)  
500 or 1250 W (120 V - Canada and USA)  
Not programmable  
Mimetic white only

**ALLEGRO**  
One-design 100% convection  
750 to 2000 W (240V)  
Programmable  
White or mimetic white (Canada only)

**TENOR**  
Warm elegance  
1000, 1500, 2000 W (240 V)  
Programmable  
Sepia black only.

Hot spot  
750 or 1250 W (240V)  
Programmable  
White or greige

**PROGRAMMER**  
Intelligent confort  
Available in two versions:  
the FP model (special wiring)  
and the CP model (no special wiring required)

# Quality, safety, efficiency and comfort

Convectair offers you a wide range of heaters that blend into any decor and provide unequalled comfort. We've built our reputation on our electronic thermostat accurate to 1/5°F (1/10°C), our exclusive cast-aluminum monoblock heating element, our manufacturing process, which meets the most stringent quality standards, and our easy-to-use Programmer. Together, these advantages deliver incomparable efficiency and considerable savings—up to 25%—in your heating costs.

# Convection, radiant fan-forced heat

With Convectair, you can choose the type of heating that yields the best results for your needs. The choice is yours. But remember: only Convectair heaters are stamped with the Convectair name.

**SOPRANO**  
Small but mighty  
This unit aims hot air downward and heats your bathroom in a flash. An optional timer control or a thermostat (sold separately) provides extra-quick heating just when you want it, for as long as you want.  
750 or 1500 W (120 V, 240 V)  
Not programmable  
White only

**CALYPSO**  
The warmth of a tropical breeze... instantly  
The Calypso combines a quiet fan and timer and allows you to select electronic thermostat-controlled heating (1000 W) or the quick-heat option (2000 W).  
1000 / 2000 W (240 V)  
750 / 1500 W (120 V)  
Programmable  
White or off-white (Canada only)

**SAMBA**  
Streamlined, silent and efficient  
The Samba is a wall insert heater with a visible thickness of just 1 5/8" (4,1 cm). Its natural convection heating, controlled by a built-in electronic thermostat, is absolutely silent. The quick-heat option runs on a silent fan controlled by a timer, so you can attain the ideal comfort level even faster.  
1000 / 2000 W (240 V)  
Programmable  
White only

**OPERA**  
A sunny corner in your bathroom  
With radiant heat and optional towel bars, the Opera transforms into a towel heater without affecting your comfort.  
750 or 1250 W (240 V)  
Towel bars sold separately  
Programmable  
White or greige

**JAZZ**  
Modern and efficient  
Silent natural convection heat (1000 W) gives you quiet, comfortable, even heat throughout your bathroom. The built-in timer and function selector allow you to choose just the right combination of time and heat for perfect room or towel heating (1000 or 2000 W). The heat is blown through the holes in the towel bars.  
1000 / 2000 W (240 V)  
750 / 1500 W (120 V)  
Programmable  
White only

**DIVA**  
Heat wave  
This sleek model is equipped with a timer for quick heating. The entire surface of the Diva produces radiant heat, which can be combined with hot air circulation from the bottom grille.  
Radiant heat: 500 W  
Radiant heat and hot air: 1500 W (240 V)  
Programmable  
White only

**BOLERO**  
Everything you're looking for!  
The Boléro allows you to choose the type of heating you prefer: radiant heat (750 W), radiant heat and hot-air circulation (2000 W) or room-temperature air circulation.  
Combined heating : 2000 W (240 V)  
Programmable  
White only
